

REMARKS

Reconsideration of this application, as amended, is respectfully requested.

The Applicants wish to draw the Examiner's attention to the Applicants' related co-pending applications and issued patents (see revised Appendix A) directed to nanoparticles and methods of preparation and use thereof.

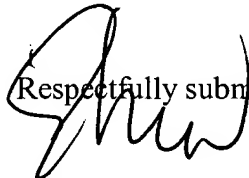

Claims 433-461 were pending in this application. The Applicants note that the Examiner had allowed claims 449-461 and found claims 434-436 and 444-446 to be allowable if placed into independent claim format. In order to expedite the allowance of the application, the Applicants cancelled claims 434 and 444 and amended claims 433 and 439 to include the subject matter of cancelled claims 434 and 444, respectively. The Applicants also amended claims 435 and 445 to change the dependencies. The Applicants respectfully submit that amendment of the claims do not constitute new matter.

Turning to the office action, claims 433, 437-443, 447, and 448 stand rejected under 35 U.S.C. section 102(e) as being anticipated by Yguerabide (U.S. Patent No. 6,214,560)("Yguerabide"). The Applicants respectfully traverse this rejection and submit, without commenting on the merits or lack thereof of the rejection, that the rejection is moot in light of the present amendment. Withdrawal of the rejection is in order and is respectfully requested.

In conclusion, the Applicants respectfully submit that the claims in this application are in allowable condition and request a Notice to this effect.

Reconsideration of this application is respectfully requested and a favorable determination is earnestly solicited. The Examiner is invited to contact the undersigned representative if the Examiner believes that this would be helpful in expediting the prosecution of this application.
